The Market House Craft Center is pleased to present the 19th Annual Strictly Functional Pottery National. Every year we anticipate unpacking pottery-filled boxes and designing the perfect exhibit to display these fine functional pieces to their best advantage. The beautiful work comes in all shapes, sizes, colors and textures. Some pieces push the limits of function while others ask only to be enjoyed and used on a daily basis.

Each year we invite a highly respected individual from the ceramics field to

jury the exhibition. This year we are honored to have studio artist and editor Mary Barringer. She has exhibited her work nationally and internationally, and has taught at numerous art centers and universities. In addition to her studio work she has written and lectured on ceramic history, and in 2003 she was named editor of Studio Potter Magazine. She lives in Shelburne Falls, Massachusetts.

"I have been a studio artist for more than thirty years, making both sculpture and functional pottery. In recent years I have concentrated on pots, making them slowly

and building up the surface with multiple layers of slips and glazes," Mary writes in describing her work. "Making pots enables me to participate in an ancient human conversation through the work of my hands. My forms come out of my own ideas about food, history, and the body, but it gratifies me that they go on to lead lives of their own: to inhabit other spaces, fit other hands, and fulfill other ideas of the useful and the beautiful."

This year 110 functional works were selected from nearly 1000 images sent by artists from nearly every state. A different artist, ranging from well-established potters to emerging talents, created each piece. Our instructions to Mary were to select a balanced exhibit with regards to construction methods, clays, glazes and firing methods. These parameters meant that many artists submitted wonderful pieces that were not selected for this year's colorful show.

We are proud of this year's exhibit, and we are honored to work with the many volunteers and artists who make this show possible. We appreciate our sponsors, friends, and applicants who make Strictly Functional Pottery National possible every year. We invite you to discover what some of the finest functional potters are creating in America today. 🍷

The organization was founded in 1946 as the Conestoga Valley Chapter of the PA Guild of Craftsmen. In 1988, it was reorganized into two separate organizations: The Market House Craft Center and Lancaster Designer Craftsmen. The MHCC is a nonprofit [IRS 501(c)3] educational organization whose mission is the encouragement, education and promotion of quality crafts and craftsmanship. Lancaster Designer Craftsmen is an [IRS 501(c)6] organization which is a membership organization for about 150 craftspeople and friends.

The purpose of this organization is to encourage and promote Pennsylvania crafts and craftsmen. The MHCC and LDC are totally volunteer organizations. Sixty volunteers work many, many hours to make the *Strictly Functional Pottery National®* a success every year. Without these dedicated volunteers, the MHCC would not be able to present an exhibit of such magnitude. 🍷

This is the fourth time SFPN will be held at Kevin Lehman's Pottery in historic downtown Lancaster. The studio is a 13,000 square foot warehouse, once the home of the former *Posey Iron Works*. The present facility affords ample room for exhibitions, teaching classes, holding workshops and engaging in

clay projects, large and small. Kevin Lehman's Pottery offers studio spaces and residencies that provide opportunities for teaching and a venue for showroom sales. Kevin has focused considerable attention to large works of pottery: colossal jars, tile fireplaces, grand wall decor and large exterior sculptures. 🍷
